

Artisa will pack and send your purchased cheese in chilled boxes to most places in Australia.

Sorry, we do not ship overseas.

We ship all online orders utilising Australia Post Express Post. The Australia Post Express Post network aims to deliver goods within 1 business day for most major cities, regional centres and even many rural areas. The majority of other areas fall within another day or two.

* [A pdf Estimator for the number of delivery days for domestic Australia Express Post can be found here](#)

Orders are dispatched on Tuesdays. This is to ensure that as far as possible, you receive your goods within one to two days.

Shipping costs:

For 1-8 cheeses: standard shipping consists of a cardboard box lined with wood wool and Techni-Ice sheets. This eco-friendly packaging offers good protection and helps hold temperatures sufficiently cool during delivery for 24-48 hours. **Our standard Express Post shipping rate is \$19.50.**

For 8-12 cheeses: an An Eski-pack upgrade will be required. An Eski-pack upgrade is **\$8** and is free for orders over \$80.00. This [can be purchased as a product item from the online shop here](#). This Eski-pack upgrade uses a polystyrene box outer instead of cardboard thereby offering substantially more thermal protection.

An Eski-pack upgrade is also recommended for more regional or rural locations and during periods of hot weather.

For orders of more than 12 cheeses: contact us for pricing.
